

# JOIN US TO LEARN ABOUT TFT!

**Teaching for Transformation** is a Deeper Learning framework that invites, nurtures, and empowers students and teachers within Christian schools to play their part in God’s story. It is a professional growth journey that equips teachers to design learning experiences that ensure your school’s mission and vision comes alive daily in the lived experiences of a Christian school community.

And, we are excited to offer a series of webinars that will introduce Christian school leaders and teachers to Teaching for Transformation.

By exploring classroom learning stories, the first two webinars are designed to introduce the core practices of Teaching for Transformation. The final webinar provides an opportunity to explore the various aspects of leading a TFT implementation journey at your school.

**We invite you and your team – teachers, admin, board – to join us** for these opportunities to explore the practices and possibilities of Deeper Learning at your school through the framework of Teaching for Transformation.

If you have any questions, contact Darryl De Boer at [darryl.deboer@cace.org](mailto:darryl.deboer@cace.org).
