

Artificial intelligence is no longer on the horizon—it is already in our classrooms, our assignments, and our students' pockets. The question is not whether Christian schools *will* engage AI, but *how*.

Teach Like a Human is a year-long professional learning journey designed to help your faculty think deeply, philosophically and practically about teaching in the age of artificial intelligence. Together, we will explore how to remain grounded in our school's mission while navigating rapidly emerging technologies. What does it mean to be human in an AI-shaped world? What does faithful teaching look like now? What tools should we embrace—and which should we resist?

This cohort experience invites your teachers to move beyond fear or hype and toward wisdom, courage, and thoughtful experimentation. Through monthly sessions, collaborative design work, and real-world application, your faculty will develop practical strategies aligned with your school's mission and values.

We believe educators are uniquely positioned to lead in this moment—not by imitating the culture, but by telling a better story.

We invite your school to join a cohort of curious and courageous educators committed to teaching like humans in an age of machines.

This professional development program is designed around a monthly opportunity (75 minutes sessions) to dive deeper into artificial intelligence and education, followed by a commit-to-try from the participant. Modules 1-4 are designed to be full faculty opportunities to learn and design together. Modules 5-8 are designed for affinity group (e.g. K-2 teachers, 3-5 teachers, subject level experts) learning and designing.

Dr. David Mulder **Teach Like a Human Author and Instructor**

Dr. David Mulder serves as professor of education at Dordt University where he teaches in both the undergraduate teacher preparation program as well as the MEd program. He has experience working with learners at the elementary, middle school, high school, undergraduate, and graduate levels. Dr. Dave embodies a playful approach to his classroom practice, and he enjoys a wide variety of interests both within and outside the field of education.

THE 8 MODULES

Module 1: Welcome to the Brave New World!

Let's poke around inside this AI thing together—what it is, how it works, and why it has everyone talking.

Module 2: Teaching and Learning in an AI World

Before we react, we'll remember who we are: storytellers called to restoration in a tech-shaped world.

Module 3: Teaching and Learning with AI

We'll name the worries (yes, the cheating one), explore the possibilities, and find faithful ways to lead our students wisely.

Module 4: Your AI Teaching Assistant

Discover how AI can help with planning, brainstorming, differentiation, and feedback—so you can spend more energy on what only humans can do.

Module 5: Strategies and Tactics for Working with AI in Your Context, Part I

In grade-level and subject groups, we'll surface real classroom tensions and begin shaping responses that actually fit your day-to-day reality.

Module 6: Strategies and Tactics for Working with AI in Your Context, Part II

Turn ideas into action—design assignments, guardrails, and workflows you can try immediately..

Module 7: Strategies and Tactics for Working with AI in Your Context, Part III

Refine your practice, troubleshoot challenges, and build school-wide agreements that protect both integrity and imagination.

Module 8: Celebrations of Learning

Showcase what you've tried, celebrate growth (and a few glorious failures), and commit to teaching like a human in an AI world.

PRICING

Option 1: Online Only	Option 2: In-person & Online
<ol style="list-style-type: none">1. Access to 8 learning modules through a learning management system (Canvas) that includes access to session recordings, templates, AI prompt libraries, and policy samples2. Monthly coaching session with your AI Champion and Dr. Mulder3. Inclusion in Affinity Groups for Modules 5-84. Copies of Teach Like a Human for all participants5. Ongoing email support6. An option for continuing education (for an additional \$50 per participant fee)	<ol style="list-style-type: none">1. Two 4 hour in-person professional development (PD) sessions with Dr. Mulder (e.g. PD#1 – Modules 1 & 2; PD #3 – Modules 3 & 4). These PD sessions can be scheduled on consecutive days or as separate learning events. <i>These "Days with Dave" are based on a first-come, first-served basis so sign up early!</i>2.
